Total = 149

Ostrich postmarks;

South Africa. Oudsthoorn.....1986
 South West Africa..... 1976
 England..... 1999
 Spanish Sahara..... 1960

Ostriches and Ostrich eggs (not feathers)

81 data details missing.

Can you help to provide data to fill the gaps in my list?

Additions/Corrections to this list are most welcome.

Note. Several listed stamps show the ostrich on the outer of a mini sheet and not on the stamp itself. These are listed as the whole mini sheet can be used for postage and some First Day Covers exhibit the complete mini sheet. You can delete these if you feel they do not comply with your collecting standards. I include them as they add to the topic and create variation and interest, and it is all fun anyway. My rules are simple..if it shows an ostrich, I like it.

Happy Collecting.
